Disclaimer: The information contained in this document is not an offer to sell the products. Products covered under patents in respective Territories may be offered only for R & D purpose on buyer's request at the sole responsibility of the buyer. Aurobindo Pharma Limited and its Subsidiaries does not accept any liability whatsoever for the content of this document or for the consequences of any actions taken on the basis of the information provided through this document.

Aurobindo Pharma was born of a vision. Founded in 1986 by committed professionals, aiming to become Asia's leading and one among the top 15 Generic Pharma companies in the World by 2015.

Aurobindo is one of the top API manufacturing companies in the world and also among very few pharmaceutical companies that are vertically integrated with a presence in API and Formulations segments delivering innovative solutions. From discovery to development to commercialization, our growth is aided by cost-effective drug development and substantial manufacturing.

- A well-integrated generic pharmaceutical company
- Trusted name in Healthcare with 26 years of operational excellence
- Aims to achieve US\$ 2 Billion by Fy15
- Amongst the top 6 companies in terms of exports & revenues in India
- In-house R&D for rapid filing of Patents, DMFs and ANDAs
- Top of the league in DMF and ANDA filings
- World Class Facilities inspected by USFDA, UK MHRA, WHO, ANVISA, TGA, GCC Etc.
- Expertise in Complex Technologies, Regulatory and IP
- Fully equipped with instruments like LCMS, GCMS, NMR, XRD, DSC, HPTLC
- Well Established CRAMS Division

Operating under high quality standards with various accreditations, fully backward integrated in all key products from the active ingredient to customized application forms, Aurobindo can be a long term business partner.

- Offers innovative products, basket of carotenoids and antioxidants.
- Expertise in formulation development and multiple application knowledge
- Can Supply in various value added forms - powders, oil suspension forms, beadlets, granules, water soluble products like Curcumin etc.
- Strategically outsourcing botanical ingredients with complete traceability and documentation
